

Requirements

Requirements list

Basic sewing kit - needles, scissors, a neutral coloured reel of thread just if needed to tack stuff into place - (this is optional really as it's not something I often do but some people may be more comfortable with it) - plus either hand or machine threads for embroidery.

Embroidery hoop of six to eight inches (15 - 20 cm) in diameter for hand embroidery.

A metre of calico for the base fabric - Abakhan do remnants if a couple of people want to buy a piece between them, or a metre from a bolt. They only need light to medium weight - any heavier and those who are hand stitching might struggle with the layers.

Any sheer fabrics they have, fancy threads (the 'bought because it's beautiful but I have no idea what I'm going to use it for' type), bits of lace, beads etc. I will bring a selection of stuff along for people to dip into as well so nobody needs to go out and buy stuff specially.

Sewing machine if they wish
